Iron Man Model
Zubair Akbar a successful businessman, mountaineer, hiker, triathlon athlete and an avid runner.

Food for thought...

Iron men and women live active lifestyles and eat accordingly, enjoying healthy portions of whole foods high in lean protein, good fats and complex carbohydrates. Diets vary greatly, and should, depending on your lifestyle and physical activities. The more intense your physical activity is (weight lifting, running, boxing, endurance sports, power lifting, etc.), the more calories you will need. Believe it or not, many so-called “bad” fats are not necessarily bad for you. Egg yolks, while containing cholesterol, does not raise your body’s cholesterol levels. In fact, diets with good fats (saturated and monounsaturated fats) help to regulate natural hormones and can actually increase natural testosterone levels which of course builds muscle. You may not aspire to being a bodybuilder or champion athlete, but men and women that increase their lean muscle mass can consume more calories.

The food items here in the Iron Man Healthy Choices are wholesome, healthy and nutritious. Those seeking to drop body fat should choose the higher protein, lower carbohydrate items, and those on higher calorie diets with active physical lifestyles should choose foods rich in complex carbohydrates for sustained energy. Always remember to follow a balanced diet. After all, God created food for our enjoyment. Eat in moderation. The more active you are the more calories you will need to consume. Eat up, stay active and enjoy life!

—Russ Niewiarowski, Russell Pain Training
